

# **NORTHWEST REGION OF BRITISH CYCLING**

REPORT FROM TONY BARRY NORTHWEST REGIONAL CHAIRMAN 2010 - 2011

I am pleased to report that the Northwest Region has had a very successful competitive season during this year.

We are still the second largest region within British Cycling and if you were to add both Wales and Yorkshire numbers together our membership exceeds that total.

Northwest Female riders keep our region top in the numbers game in the country.

It is also commendable that our Junior Regional Teams are always in the top 3 and the majority of times are winners.

With this in mind I am honoured to have been Chairman of the Northwest Region and feel very lucky to have had an exceptional team of Officials who always went that extra mile putting the Region as a first priority to all else even though there were differences of opinion at times.

I would like to thank them all and sincerely hope we can work together in the future.

My heartfelt thanks also go to all the Commissaries, Judges and Organisers of all the Road, Track, Mountain Bike and BMX events.

We in the Northwest are very lucky to have a good mix of dedicated, hardworking and happy people who are "The Best".

Thank you

Tony Barry  
Northwest Regional Chairman
